Office Action Summary	Application No. 10/030,825	Applicant(s) TAKADA ET AL.	
	Examiner Edward J. Webman	Art Unit 1616	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Applicant's election of matrix type patch in the reply filed on 8/10/04 is acknowledged. Because applicant did not distinctly and specifically point out any errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3, 5-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO96/04902 (equivalent US 5,795,916 to Sekine et al) in view of Inagi et al.

Sekine et al teach a plaster of high stability comprising a salt of diclofenac (abstract). 0.05-5% is specified (column 2 lines 65-55). Antiseptics, including benzalkonium chloride, are disclosed (column 4 lines 41-44). Adhesion with polyacrylic acid is disclosed (column 3 lines 42-46).

Inagi et al teach an adhesive plaster comprising an acrylic polymer (abstract). Antiseptics such as benzalkonium chloride, are disclosed at 0.01-5% (column 7 lines 22-35).

It would have been obvious to one of ordinary skill to make a plaster comprising diclofenac and benzalkonium chloride to achieve the beneficial effect of high stability in view of Sekine et al. As to the amount of benzalkonium chloride, Inagi et al disclose a suitable amount in a plaster.

As to the claimed ratio, it is argued that Sekine et al disclose 5% diclofenac and Inagi et al disclose 5% for benzalkonium chloride. The 1:1 ratio of the ranges of diclofenac and benzalkonium chloride falls within the claimed ratio.

Claims 5 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6 "matrix-type" is vague; it is unclear as to whether a matrix is definitely claimed. In claim 9 "styrene" is indefinite. Is styrene intended?

No claims are allowed. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Webman whose telephone number is 571-272-0633. The examiner can normally be reached on M-F from 8 AM to 5 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, S. Padmanabhan, can be reached on 571-272-0629. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
